GASPAR ISRAEL CHAY COLLI

Full-Stack Developer Jr | React, Next.js, TypeScript & Node.js

israel.chay.32@gmail.com | +52 99-95-07-66-18 | Kinchil, Yucatan, Mexico

SUMMARY

Full-Stack Developer with experience in React, Next.js, TypeScript, and Node.js/Express, plus backend development in Java/Spring Boot. Built and deployed complete web applications with JWT authentication, REST APIs, PostgreSQL, and exportable reports, applying version control and Agile methodologies (Scrum). Seeking to join a collaborative team where I can continue growing professionally.

WORK EXPERIENCE

Web Developer | **InnovaForce** **01/2025 – 04/2025**

- Developed reusable components in Next.js + TypeScript, improving frontend scalability.
- Built modern, responsive interfaces using Tailwind CSS and Shadcn/UI, optimizing user experience (UX/UI).
- Integrated RESTful APIs, managing dynamic data flows between frontend and backend.
- Implemented efficient state management to improve application performance.
- Designed accessible navigation flows following Web Accessibility (WCAG) principles.
- Tested endpoints and validated services using Postman.
- Collaborated under Agile/Scrum methodologies with Git version control.

Technologies: React, Next.js, TypeScript, Tailwind CSS, Shadcn/UI, Zustand, Git**.**

Flutter Developer | **Yabodev** **05/2023 – 08/2023**

- Developed a full mobile application in Flutter focused on business operations management.
- Implemented local persistence with SQLite and cloud synchronization via Firebase, ensuring data availability in offline mode.
- Designed offline-first architecture logic, enabling continuous operation without connectivity.
- Optimized codebase by applying Clean Code and SOLID principles, improving maintainability.
- Enhanced overall app performance, reducing load times and resource consumption.
- Collaborated in a team using Git under Agile (Scrum) methodology.

Technologies : Flutter, Dart, Firebase, SQLite, Android Studio, Git

PERSONAL PROJECTS

Teacher Tracker — School Management System with QR Codes — *Full-Stack Developer*

- Built a full-stack application to manage students and activities, with assignment submission tracking via QR code scanning and per-subject Excel/PDF reports.
- Developed the interface with Next.js, TypeScript, Tailwind CSS, and Shadcn/UI, integrated with the API through Axios.
- Implemented a REST API with Spring Boot, JWT, and PostgreSQL, featuring per-teacher data isolation and custom exception handling.
- Wrote unit tests with JUnit and Mockito for the service layer.

Technologies: *Next.js, TypeScript, Tailwind CSS, Shadcn/UI, Java 17, Spring Boot, Spring Security, Spring Data JPA (Hibernate), Maven, JWT, PostgreSQL, JUnit, Mockito, Docker.*

REST API – Los Primos — ***Backend Developer***

- Developed a RESTful API with Node.js and Express for managing products, orders, and reports.
- Designed and implemented a PostgreSQL database using Prisma ORM.
- Created CRUD endpoints ensuring query efficiency.

- Applied backend best practices focused on scalability and security.
- Tested all endpoints using Postman.

Technologies: Node.js, Express, PostgreSQL, Prisma, REST API, Postman

Backend Java – Enterprise REST API — *Backend Developer*

- Developed a RESTful API using Java and Spring Boot, focused on employee management
- Implemented layered architecture (Controller, Service, Repository) to improve scalability and maintainability
- Designed REST endpoints for CRUD operations using DTOs for data transfer.
- Implemented validations with Bean Validation, ensuring data integrity.
- Configured global error handling with @ControllerAdvice for consistent API responses.
- Integrated PostgreSQL database using Spring Data JPA and Hibernate.
- Implemented JWT authentication and role-based access control (RBAC).

Technologies: Java 17, Spring Boot, Spring Data JPA, PostgreSQL, Hibernate, Maven, Postman

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Dart, Python, Java
Frontend: React, Next.js, Tailwind CSS, Shadcn/UI
Backend: Node.js (Express.js, Nest.js), Spring Boot (Java)
Databases: PostgreSQL, MongoDB, Firebase, SQLite, SQL Server
Mobile: Flutter
Tools: Git, Postman, Prisma ORM, Vercel, Railway, Jira, Slack, Docker
Programming Concepts: Object-Oriented Programming (OOP) with Java and TypeScript, SOLID Principles, Clean Architecture, RESTful API Design.
Testing: JUnit, Mockito, Postman, Jest.

EDUCATION

Bachelor's degree in software development and management. **09/2023 – 08/2025**
Universidad Tecnologica Metropolitana — Merida, Mexico

Associate's degree in multiplatform software development. **09/2021 – 08/2023**
Universidad Tecnologica Metropolitana — Merida, Mexico

LANGUAGES

Spanish: Native
English: B2 (Upper-Intermediate)
